ZOHAIB TARAR

APPLIED COMPUTING STUDENT

I am an open-minded individual with a proven track record in designing websites and programming. Additionally, I have strong technical and IT skills as evidenced by my web development business and current status as an Applied Computing undergraduate. Moreover, I have excellent communication and interpersonal skills, which were enhanced during my role as an Assistant Manager. I am eager to be challenged and continue to professionally develop my skills.

EXPERIENCE

Self-employed

Freelance
Jan 2014 - Present

WEB DESIGNER & DEVELOPER

I work as a freelance web developer. The main duties and responsibilities include the designing, developing, maintenance, testing and updating of websites for a diverse range of clients. Additionally, I am involved in the set-up and maintenance of domains, hosting, databases and servers. Various coding languages are used including HTML, CSS, JavaScript, PHP as well as the utilisation of Content Management System (CMS) platforms.

Canon Medical Research Europe

Edinburgh, UK
Jun 2019 - Aug 2019

INTERN SOFTWARE ENGINEER

During my internship I was responsible for Investigating the use of automated simulated scalability testing tools to determine how to create a suitable test environment to do more focused scalability tests. I used Apache JMeter to replicate the load on servers from the type of requests that are made during a normal user workflow in an application. As a result, I delivered an automated scalability testing infrastructure that can be extended and used to evaluate future updates to the platform.

Nisa Extra

Glasgow, UK
Nov 2015 - Jan 2018

ASSISTANT MANAGER

Within this role, duties included recruitment, training, supervision, analysing sale figures and maintaining accurate records, setting sale targets and dealing with customer queries. The role helped me to develop important skills such as leadership, organisation, communication and time-management which were effective in motivating employees and ensuring store efficiency.
